## GOOD WORK STILL GOES ON.

Many Endeavor Services  
in Cincinnati.

Twenty Years of Effort  
a General Text.

Simultaneous Evangelical Meet-  
ings Largely Attended—  
Clark Gratified.

BY THE NEW ASSOCIATED PRESS—P.M.J.

CINCINNATI (O.) July 7.—The various Endeavor services in the Christian Endeavor were open yesterday. From morning till evening, and during almost every hour of the day, there were services going on in some part of the city. The day opened with three "quiet-hour" meetings of one hour each, held in three of the largest of the city's churches, and conducted by Rev. Floyd W. Tompkins of Philadelphia and Rev. Wolfson of Brooklyn. The meetings at the Central Christian Church was to have been conducted by Rev. J. W. Chapman of New York, who was seriously ill at his country home at Winona Lake, and a large concourse of people had assembled therein, in expectation of hearing him, but the meeting was deferred off.

The various pulpits about the city were occupied during the rest of the morning by the visiting ministers, whose topic was "Twenty Years of Christian Endeavor." The attendance at these meetings was large, and especially so at the First Methodist Episcopal Church, where Rev. Charles M. Sheldon of Topeka, Kan., spoke.

### MEN'S MEETING.

The afternoon was devoted to simultaneous evangelical meetings in the Music Hall Auditorium. These meetings were classified for men, women and children. The attendance all day was large, and the evangelistic work was done in an independent footing.

At the men's meeting in the Auditorium Endeavor. This meeting was to have been conducted by Rev. Chapman of New York, but in his absence Rev. Dr. Clark of the First Methodist Philo Hall of New York City conducted it. President Clarke occupied the chair a portion of the meeting.

### WOMEN'S MEETING.

The meeting of the women in the Auditorium proved to be a temperance meeting. It was conducted by General Secretary John Willis Baer of the National Temperance Union. The remarks were for temperance, not anti-smoking, and in view of the remarks made by the various speakers, it was evident that the children were apt to contract in their young days.

### CHILDREN'S MEETING.

At the Auditorium Ohio, the children held sway, led by the new field secretary, Clarence E. Beerman, of Indianapolis. The Temperance Union of Boston and Miss Katharine Hause of St. Louis addressed the children, admonishing them in the ways of righteously, and illustrating the dangers of cigarettes and other smoking. The children were asked to swear off contracting in their young days.

### JUDGE DAY AND OTHERS REMAIN FOR DINNER.

Mrs. McKinley's Condition Favorable.

BY THE NEW ASSOCIATED PRESS—P.M.J.

CANTON (O.) July 7.—A quiet restful and pleasant day was spent at the McKinley home yesterday evening, nothing having been passed. The President and Mrs. McKinley and Mrs. Barber during the morning drove to West Lawn Cemetery and placed flowers on the graves of the McKinley children and other relatives buried there, and spent the remainder of the day at home. During the afternoon they sat on the porch for a time. Only five callers appeared at the house, and they were intimate friends or relatives.

This evening the Barbers and their children and Judge Day were entertained at dinner and remained to spend the evening. Mrs. McKinley's condition continues favorable.

GYPSIES TOOK TOMMY.

Youngster Gnaws the Rope with His Hands Had Been Tied and Rung—Little Girls Bound.

BY THE NEW ASSOCIATED PRESS—T.T.

MATTOON (Ill.) July 7.—(Exclusive Dispatch.) Local authorities are at work on a mysterious kidnapping case and are trying to get some clue that will lead to the apprehension of a pair of gypsies who are charged with kidnapping Taquan Welch, the nine-year-old son of Daniel Welch.

The boy went up town last night with his father, who, after purchasing some household supplies, started the boy home with the purchases. As the lad was on the way home, he was seized by a man and carried to a wagon which was pulled by two horses. The boy was placed in the wagon his hands were tied, and the rope was held by the man and woman in turn. So that he should make no attempt to escape without attracting their attention. The boy found there were two little girls in the back of the wagon, each six or seven years old. They were tied hand and foot, and lay in the box and were unable to move.

As soon as young Welch realized the situation he tried to get his hands loose, and finally succeeded in doing so by gnawing the rope. When the captors camped at noon the boy stole out of the side of the wagon, and ran away without being seen. He was finally picked up by a man driving to Mattoon this afternoon.

The lad was missed last evening, and his relatives spent the night hunting for him. In the new Illinois law he is not a capital crime.

GASOLINE TANK EXPLODED.

William Fitzgerald's Coachman Took a Lighted Candle to Locate a Leaking Fitgerald Dead and Coachman Dying.

BY THE NEW ASSOCIATED PRESS—P.M.J.

MILWAUKEE, July 7.—As a result of the explosion of a gasoline tank in the cellar of the country house of William Fitzgerald at Lake Nagawicka late Saturday night, Fitzgerald was so badly burned that he died at noon today. His coachman, William Grunwald, is in a dying condition.

Fitzgerald was president of the Milwaukee Steamship Company, and manager director of the American Ship Building Company. He was well-known along the Great Lakes, and among business men of Milwaukee, he commanded a prominent position.

Fitzgerald followed by his coachman, was walking through a passageway leading to the cellar, trying to locate a leak in the gas plant. The coachman picked up a lighted candle from a table and set it on the floor, and Morgan suddenly had purchased the Dodge Oriental and Alaskan line of steamers.

Dodwell Denies Purchase.

TACOMA (Wash.) July 7.—George B. Dodwell of London, 7,1 of the British firm of steamer owners, and a well-known banker, was in the field against Kilbourn. He shows that there were a dozen countries in 1900 to each of which the United States exported over \$10,000,000 worth of domestic products.

The United Kingdom purchased \$40,000,000 and Germany \$34,000,000. Our agricultural exports to the United Kingdom were the largest on record, excepting those of the extraordinary year of 1898, when a value of \$42,000,000 was recorded. In 1900 we had a trade with Germany, the exports for 1900 were decidedly in excess of any previously reported, and show an increase of nearly 100 per cent. in the five years' period.

The principal part of our agricultural exports goes to Europe, market in Europe, sales to European countries having an aggregate value of \$72,000,000.

With the exception of the phenomenal

success of the Fitzgerald shout for him to go back.

## DEATH REVELS AT BALTIMORE.

Last Week's Mortality  
Made a Record.

Seventy-eight Cases of  
Killing by Heat.

Cooler Weather East of the  
Mississippi—Storm in  
Long Island.

BY DIRECT WIRE TO THE TIMES]

BALTIMORE, July 7.—[Exclusive Dispatch.] The death rate in Baltimore last week was the highest in the history of the city. There were 421 deaths in the week, as against 281 in the corresponding week last year, and 344 in the week ending August 12, 1896, the previous high point. There were 78 deaths last week from heat, and 183 from cholera infantum.

Heavy showers, being the first rain in several weeks, cooled off the city this afternoon.

LONG ISLAND STORM.

COUNTY ROADS WASHED OUT.

BY DIRECT WIRE TO THE TIMES]

NEW YORK, July 7.—[Exclusive Dispatch.] Friday's storm did much damage to Roslyn, L. I., and the electric light and telephone wires were down in all directions. Roads throughout the county were badly washed out. On the estate of Clarence H. Mackay, the downpour carried tons of earth down the hillside to the highways.

The station of the Long Island Railroad at Syosset was struck by lightning, but the building did not catch fire.

WEATHER BUREAU SUMMARY.

COMPARATIVELY COOL.

BY THE NEW ASSOCIATED PRESS—P.M.J.

WASHINGTON, July 7.—Comparatively cool weather has prevailed today over almost the entire country east of the Mississippi River, and in the Ohio Valley and lake region temperatures are considerably below the average. West of the Mississippi high temperatures continue, and because of the existence of a low pressure in the northwestern predictions are for more warmth than usual.

At the men's meeting in the Auditorium Endeavor. This meeting was to have been conducted by Rev. Chapman of New York, but in his absence Rev. Dr. Clark of the First Methodist Philo Hall of New York City conducted it. President Clarke occupied the chair a portion of the meeting.

WOMEN'S MEETING.

The meeting of the women in the Auditorium proved to be a temperance meeting. It was conducted by General Secretary John Willis Baer of the National Temperance Union. The remarks were for temperance, not anti-smoking, and in view of the remarks made by the various speakers, it was evident that the children were apt to contract in their young days.

High Naval Authorities Indignant at Failure of Constructors of Battleships to Carry Out Contracts—England's Supremacy on the Ocean Menaced.

BY DIRECT WIRE TO THE TIMES]

WASHINGTON, July 7.—[Exclusive Dispatch.] The delay in the construction of battleships, both in England and the United States, has at last begun to arouse indignation among naval authorities. The condition of things is now coming to be regarded as so serious in Great Britain that some of the greatest naval strategists and authorities believe her supremacy on the ocean has been impaired by the failure of the shipbuilders to carry out their contracts.

If the naval authorities of Great Britain have cause to complain, the United States Navy Department has a much greater grievance, for American contractors are taking eighteen to twenty-four months longer to build a battleship than their British rivals. The cost of a modern warship, including hull, machinery, armor and armament, exceeds \$6,000,000.

Since there is progressive improvement, both in design and materials of such a vessel and since every part of this vessel is subject to depreciation, there must be necessary an annual depreciation in its value as a fighting unit. This depreciation, conservatively stated, will average 6 per cent. of the first cost. The delay of two years, therefore, in the construction of a battleship (and this has occurred in the case of the Illinois) would result in a direct loss to the government of nearly \$750,000.

COOLEST SINCE MAY.

CHICAGO MERCURY DROPPING.

BY THE NEW ASSOCIATED PRESS—P.M.J.

CHICAGO, July 7.—Today was the coldest day in Chicago since last May.

The maximum temperature was 52 deg., and the minimum 50. This was a drop of 21 deg. since 6 o'clock Saturday night, when the thermometer registered 82 deg.

MONDAY, JULY 8, 1901.

**COAST RECORD**  
**GREAT WHEAT CROP SAFE.**

Unprecedented Yield of Pacific Northwest.

Shortage of Sacks and Possibly Vessels.

Large Steam Schooner Building—Head-end Collision on Southern Pacific.

BY DIRECT WIRE TO THE TIMES.]  
TACOMA (Wash.) July 7.—[Exclusive Dispatch.] Former Gov. Miles C. Moore of Walla Walla, banker and wheat-grower, announced here that the wheat-growers of eastern Washington, Idaho and Oregon is now well certain the great grain crop of Washington, Idaho and Oregon is now well above that of the previous year, greatly decreasing production. Gov. Moore estimates the crop of the Pacific Northwest States will aggregate \$40,000 bushels, making it a record yield. Nearly all of the Washington and Idaho crop, with that of eastern Oregon, will be shipped to Tacoma for export. The farmers of eastern Washington are greatly interested in the question of whether the grain feed now chartered and being carried will provide adequate transportation facilities for the great crop now assured.

There will be a serious shortage of sacks, of which the present available Pacific Coast supply is somewhat limited. Several vessels are on the way, bringing sacks from Calcutta and Bombay. The State penitentiary at Walla Walla will furnish about one million four hundred thousand bags, but nearly four times this number will be needed in Walla Walla Valley.

LARGE STEAM SCHOONER FOR THE COASTWISE TRADE.

TACOMA (Wash.) July 7.—[Exclusive Dispatch.] The keel was laid yesterday at the shipyards of the Tacoma Shipbuilding Company for the largest steam schooner ever contracted to this city. The dimensions of the new vessel are: Length, 250 feet; beam, 30 feet; depth of hold, 12 feet. The contract was let two weeks ago to the Del Monte Co. by E. J. Dodge of San Francisco. According to the contract, the work must be completed by October 1st, and the work commenced yesterday will be hurriedly carried on with all possible speed. The estimated cost of the vessel is \$65,000. She will be built of Washington fir. Her boilers and engines will be constructed in machine shops.

The vessel will run out of San Francisco in the coastwise lumber trade. The same shipyard has half completed large barkentine for the Charles Nelson Company of San Francisco.

PIERRE LORILLARD'S END CAME IN EARLY HOURS.

MEMBERS OF FAMILY PRESENT AT THE BEDSIDE.

Physician Had Told Him He Would Not Live to Reach New York, but the Magistrate Insisted That He Would. Funeral Wednesday.

BY THE NEW ASSOCIATED PRESS.—P.M.I.

SACRAMENTO, July 7.—A meeting of fruit and produce growers was held at Courtland Saturday for the purpose of effecting an organization to secure better accommodations from the commissioners of San Francisco. The session men and less dealers in transhipment and produce. Ninety per cent. of the growers of the lower river valley were represented. A committee was appointed to draft articles of incorporation and a code of bylaws to report at a meeting to be held the last Saturday of this month.

HONOLULU Judge Banqueted.

TACOMA (Wash.) July 7.—United States Circuit Judge W. H. Humphreys of Honolulu, who is visiting here at his old home, was banqueted tonight at the Florence Hotel by the most prominent of the citizens.

Monterey School Bonds.

MONTEREY, July 7.—The Board of Supervisors of this county has authorized the sale of \$20,000 of school refunding bonds for Monterey school district and \$6000 for Del Monte school district.

ACCIDENT ON SOUTHERN PACIFIC AT BLACK BUTTE SUMMIT.

Careless Engineer Causes Smash-up in Which One Tramp Is Killed and Another and the Engineer Are Injured. Engines and Cars Wrecked.

BY THE NEW ASSOCIATED PRESS.—P.M.I.

ASHLAND (Or.) July 7.—A head-on collision took place on the Southern Pacific at Black Butte Summit, twenty-two miles north of Dunsmuir, the morning at 5:40 o'clock between the south-bound California express and a special north-bound passenger train of seven coaches carrying mud-out volunteers from the Philippines. Two helper engines, a baggage car and a mail car were badly wrecked, and a tramp in the soldier special was instantly killed, and another had his arm and leg broken. Engineer Henry Wenzl of the express train sustained multiple injuries, and a number of passengers had cuts and bruises.

The locality of the wreck was a very sharp curve at the summit of the grade, and the two trains were moving at the rate of thirty miles an hour when the crash came. That so few fatalities occurred is most remarkable.

PHILIPPE'S CAMP OPENED.

His Board Backed Down.

THE NEW ASSOCIATED PRESS.—P.M.I.

SACRAMENTO, July 7.—State Superintendent T. J. Kirk and Attorney G. L. Johnson, the last of whom represented the Allied Printing Trade, returned from Bakersfield to state that the Kern County Board of Education made a complete stand against the proposed legislation.

The manual was amended and revised so as to conform in every particular with the State law.

BROWNS IN MERED RAPIDS.

NEW ASSOCIATED PRESS.—P.M.I.

TACOMA, July 7.—Miss Sadie Schaeffer, one of the waitresses of the United States, was drowned in the Merced River, near El Capitan bridge, today. Her body was recovered, and she was buried at the El Capitan bridge, today.

About 2:30 o'clock p.m., the deceased, Mrs. Sadie Young and Johnny Van Campen, left the Sentinel Hotel in the United States' boat. The frail, canvas-covered craft was insecure, and they were warned of the treacherous waters of the Merced. But jokingly bade their friends good-by. At 4 o'clock p.m., they reached the commencement of the Merced, above the El Capitan bridge. They landed, Miss Young going ashore. Schaeffer and Van Campen, however, continued to come through the rough water.

Van Campen saw that they could not get ashore with safety, and so pulled to the shore, catching hold of a root.

James F. Yeatman.

ST. LOUIS, July 7.—James F. Yeatman, the well-known philanthropist, died yesterday, aged years.

When the Civil War broke out, Yeatman endeavored to maintain peace, and labored earnestly to that end. His sympathies were with the Union, and when the war could no longer be avoided, he became one of the commissioners sent from here to explain the local status of affairs to President Lincoln.

In 1864 the Western Sanitary Com-

At this moment, Miss Schaeffer, in a spirit of fearlessness, took one of the oars and shoved the boat again into the stream, saying that they would "show the world" anything at the same time dropping the oar into the river. In a moment the boat became unmanageable and upset, throwing the unfortunate woman out on one side and the man on the other.

For a moment both held onto the upturned boat. Then he caught her hand and floated down with the current, a hundred feet or more. They struck a large bowlder and became separated, Yeatman under. When Van Campen came to the surface, Miss Schaeffer had disappeared. Her hat was found about half a mile below the scene of the accident. The body has not been recovered.

At this moment, Miss Schaeffer, in a spirit of fearlessness, took one of the oars and shoved the boat again into the stream, saying that they would "show the world" anything at the same time dropping the oar into the river. In a moment the boat became unmanageable and upset, throwing the unfortunate woman out on one side and the man on the other.

Although a slaveholder before the war, he was the author of the "Freedmen's Bureau," and made an official report to Washington, in which he advised the leasing of abandoned cotton plantations to freedmen.

After many years he had not been active, engaged in business, but was identified with numerous charitable movements. Mr. Yeatman is believed to be the original of the character, Mr. Brinsmeade, in Winston Churchill's novel, "The Crisis." The philanthropist and novelist had great friends.

At this moment, Miss Schaeffer, in a spirit of fearlessness, took one of the oars and shoved the boat again into the stream, saying that they would "show the world" anything at the same time dropping the oar into the river. In a moment the boat became unmanageable and upset, throwing the unfortunate woman out on one side and the man on the other.

## Specialists for Men.

In the successful treatment of men's diseases it is not only necessary that a physician have a wide experience, but that he have a knowledge of his medicine, food and pure and his treatment of a kind that will insure no effects.

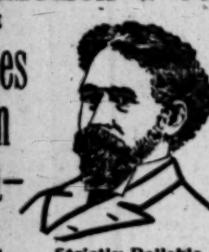

Many of the most severe cases that have been cured by Dr. Meyers & Co. were the direct result of a mistreatment at the hands of a family physician, so-called specialist. The success of Dr. Meyers & Co. largely归功于 their more advanced methods. Whatever a man's disease may be, we can assure you or the rest of the abuses, the treatment of Dr. Meyers & Co. eliminates the unnecessary use of other treatments, oftentimes saving a patient many weeks, sometimes years, of suffering.

Dr. Meyers & Co. treat the system while they kill the disease. More than 20,000 patients have been brought back to robust health by these physicians. Consultation, either by person or by mail, free of charge.

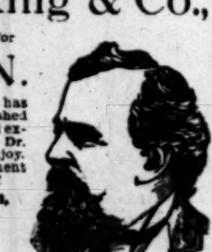

**DR. MEYERS & CO., 218 S. Broadway, Los Angeles.**

Hours—Daily, 8 to 12, 1 to 4; Evenings, 7 to 8; Sundays, 10 to 12.

**Dr. Harrison & Co.**  
CURE

**Dr. King & Co.,**  
Specialists for  
**MEN.**

**A Common Cause of Sickness.**

When the liver is sluggish and inactive the stomach will not digest food, and constipation, headache, and a general state of ill health results. In 1890 I invented the Liver Tonic, English Pile. They regulate the stomach and give vital force and energy; they drive away disease, drive out worms, and all troubles caused by an inactive liver.

"Liver-Tonic" dissolves Stricture like water and reduces ENRUMPSION like a dream and strengthens and invigorates, stopping drains in FIFTEEN DAYS! It drives to ruin the stomach, but a diuretic and positive application to the Gastrointestinal tract.

It is the wonder of the century, discovered by the Chemist Fabriion, it quickly induces the Great Scientific and Physical results. The question is, what is it that causes action in Urethral Aliments which caused the world?

It is a liquid. It is prepared from Crayons or pencils smooth and soft and so narrow as to pass the closest

and enormous expense the ST. JAMES ASSOCIATION outstripped all competitors and secured the first place.

The ST. JAMES ASSOCIATION has prepared an exhaustive illustrated medical book upon the male system which will send to any applicant

for a copy.

ST. JAMES ASSOCIATION,  
151 Main Street.

Offices: Times Building, First and Broadway.

Letter of the Los Angeles Postoffice for transmittal as mail matter of the second class

## POSTAL REFORM.

For several years there has been talk from time to time in regard to a proposition for the reform of the postal service, by restricting the privileges now allowed to what is known as "second-class matter." A dispatch from Washington announces that Postmaster-General Smith has decided to "tak the bull by the horns," and to do away from second-class mail privileges a class of periodical publications which depend largely on gift enterprises, guessing contests, or normal subscription rates for circulation. This sweeping reform, designed to put the postal service on a paying basis, is to be ordered next week by a modification of the postal regulations under the existing law.

The importance of this question, and the enormous extent to which the overloading of the United States mails with dubious publications has grown, may be gathered from the statement that such matter has increased in quantity until it now embraces nearly three-fourths of the entire weight of all postal matter handled by the government, and yet brings in a revenue of less than \$4,000,000 a year, out of the entire postal revenue of more than \$110,000,000. Under the new regulations, a large proportion of this matter, which now pays at the rate of one cent per pound, will be charged 8 cents.

The United States post office gives the public a service of which Americans may well be proud. It is astonishingly accurate and wonderfully cheap. A letter weighing an ounce may now be sent from Porto Rico to the Philippines Islands, or nearly half way around the world for 2 cents. With the removal of the heavy and unreasonable burden which the department now has to carry, in the shape of the advertising matter above referred to, the service should more than double its efficiency. All brings in a revenue of less than \$4,000,000 a year, out of the entire postal revenue of more than \$110,000,000. Under the new regulations, a large proportion of this matter, which now pays at the rate of one cent per pound, will be charged 8 cents.

On the other hand, the public service, which supposedly great and representative body the "aunty" hopes were centered—failed in a most abject manner to justify expectations, and did the very thing that Sigmund Zeisler thought it ought not to do; which shows that, after all, Congress was no good. And, to cap the climax of cussedness, the Supreme Court of the United States also fell down; actually had the temerity and the bad taste to make a decision which ran counter to the views of that great American, Sigmund Zeisler.

Thus was the last entrenchment of the "aunty" position carried, and the very citadel of their hopes captured. They had held the Supreme Court up their sleeve—to use a metaphor easily understood—as a trump card, feeling sure that when that card was played the enemy would be routed. (Our metaphors are somewhat mixed, perhaps, but our meaning, we trust, is obvious.) After the people who voted for McKinley had failed to reform, and Congress had fallen down so ignominiously, the "aunties" said themselves, in effect: "We now know that Congress and the people who voted for McKinley are fools; but we are sure that the Justices of the Supreme Court are not fools." Now that the Supreme Court has given them the ice-water douche, they declare in effect (and in squeaky chorus) that the Supreme Court Justices are also fools; that the whole American people are fools, in point of fact, with the exception of Sigmund Zeisler and a few others whose names it is unnecessary to mention. All but those persons of unnatural origin, base lineage and irregular descent, besides being purloiners of the equine property of their neighbors.

Now, everything is wrong. Not only are the times out of joint, but the whole blamed universe is jolting and wobbling at an alarming rate—which naturally causes Sigmund Zeisler to view with violent alarm. The alleged "stain on our national record" is declared to be indefinable. There is red, arterial gore on the lunar disc. The wreck of matter and the crash of worlds is imminent, and the calamity may have befallen, even before these words reach the reader over his morning coffee. Something terrible is going to happen, unless the President and Congress and the Supreme Court come to their senses pretty soon and ask the advice of Sigmund Zeisler as to the best way in which to run things.

We hope that the calamity may be averted in some way. But at this writing—12:45 a.m., July 7, 1901—the prospects are, to say the least, rather dubious. Sigmund Zeisler is thinking the matter over, however, and he may find some way out of the difficulty. But there is danger that he will fail in his earnest efforts to get the Anti-Imperialist Union "recognized."

Winfield Scott Stratton, the "aunty" of Colorado Springs is being "Carnefied" by people who dog his footsteps for money for public enterprises to such an extent that he has appointed a bodyguard for protection. Of a truth "unseen lies the head that has a pocketbook."

It was a hard jolt for that Colorado tramp who knocked at a physician's door, and in answer to a lady's question as to what he wanted, replied, "A pair of the doctor's old pants." "Sir," she replied with flashing eyes, "I am the doctor."

If that "automobile war" between manufacturers should go into effect and reduce the price of the machines considerably, it wouldn't be long before one dream of our nation would be realized. We would have the swift messenger boy.

Lige Dowie says his place is not a hospital. Perhaps he calls it a lamb-shearing corral.

There is a postoffice in Texas named Honest—a postoffice, mind you—not a postmaster.

The Anti-Imperial League of the United States—comprising the persons above mentioned and a hundred others, more or less—have joined in an address "to the American people." These League, says the address, "have been

## WHERE ARE THE ANTI-TRUST LEADERS?

The Review of Reviews for July, in its department, "The Progress of the World," notes the remarkable calm that seems to have fallen upon the erstwhile active, not to say violent, opponents of the trusts. This condition of comparative quiescence is in part explained by the Review of Reviews, as follows:

"As we have already remarked, the new movement toward consolidation and the creation of great corporations has almost none of that bitter antagonism toward it which was so manifest even a year ago. It is a striking fact that many of the most intense of the former anti-trust legislation and anti-trust working actively into the company-promoting business. Ex-Senator Pettigrew of South Dakota is said to have been both active and successful in the movement, and to have secured various projects not precisely compatible with the position he had been understood to hold for some years toward the modern financial world. Mr. Towne of Minnesota, who is the most prominent of Mr. Bryan's editorial supporters, is out of politics, and is associated with such other great Bryan leaders as Govs. McMillin of Tennessee and Hoge of Texas, pronouncing oil companies as the new New York Stock Exchange. Tom L. Johnson of Cleveland, O., is the coming man in the Democratic party, and Mr. Johnson is himself a great street-railway and telephone and telegraph magnate. One might have expected the huge steel company to arouse a crowd of public antagonism, but very little as yet can be discovered. It is not to be supposed that there will always be a strong and determined opposition to the corporations; but, at present, the skins are clear and the breeches are equal."

"There is nothing in the world which will so soon silence the raucous denunciation of an anti-trust statesman as an uncertain voice declares that no human being under our control could be without the rights secured by our Constitution, and that neither President nor Congress, nor both together, could exercise absolute power over men entitled to the protection of our flag."

But it seems that these bright and iridescent dreams were not to come true. "These hopes," say the "organized" Anti-Imperialist Leagues of the United States, with tears in their voices, "have not been realized." Those who voted for Mr. McKinley continue, with singular perversity, to rejoice in the fact, and (from the "aunty" point of view,) to sort of glory in their own degradation. Congress too—upon which supposedly great and representative body the "aunty" hopes were centered—failed in a most abject manner to justify expectations, and did the very thing that Sigmund Zeisler thought it ought not to do; which shows that, after all, Congress was no good. And, to cap the climax of cussedness, the Supreme Court of the United States also fell down; actually had the temerity and the bad taste to make a decision which ran counter to the question, though the demagogue can see but one side.

One thing, however, is certain: The remedy for the evils which flow from the trusts will never be found nor applied through indiscriminate denunciation. The trust is a modern industrial and commercial outgrowth, which presents new conditions to be dealt with by legislation, and by public sentiment acting through its legitimate channels. These new conditions must be met wisely, through means and methods suggested by men who think consequently, and who have a thorough knowledge of society and of the public welfare. It is to be insisted for the accomplishment of desired results. We must first find out what is needed before we reasonably hope to supply the remedy.

Pastor Joseph Smale preached in the First Baptist Church yesterday morning from the text, "Things that Accompany Salvation," Heb. VI. 9. He said in part: "Salvation and the things that accompany it must not be confounded. To understand the difference between them, let us first ask and answer two questions. First, what is salvation? second, what are its attendants? To put the answer of the first into a sentence, I would say that salvation is a prod of mercy, divine from first to last, to meet an imperative human need."

"I think I am saved," says someone, "but I don't know how, because of sins of self-discipline, self-denial, and religious behavior." Shall I shock you by saying that that is not salvation? Consider what human things these are! and if they are sins, are they divine? and if they are not divine, why do we not save? I think I am saved, says someone, because I have known nothing but a religious atmosphere. In which case, shall we be as white as snow, and though we be red like crimson they shall be as wool?"

Mr. Ward said, in part: "The prophet had just shown the exceeding sinfulness of mere formal worship, desiring God to be worshipped as an abomination and an abomination in His sight. Mankind must have known mountain and sky and sea before he was fitted to speak the splendid words of vision in the fourth chapter. This went to the depths of the heart, and there are special provisions for meeting them. The prophet pointed out to us our largest cities, and there are also the smallest number of agencies for relieving its distresses. Moreover men and women are giving not only their money, but they are giving themselves in thought and labor to remedy what seems wrong, or needed. The gain of man is the gain of society. The secret of these United States, where unscrupulous avarice has reached enormous proportions."

"Frederick Harrison, the eminent English author, has recently emphasized the need of calling attention to it as a singular distinction of this country. Where there are extraordinary hardships there are found in connection therewith special provisions for meeting them. The prophet pointed out to us our largest cities, and there are also the smallest number of agencies for relieving its distresses. Moreover men and women are giving not only their money, but they are giving themselves in thought and labor to remedy what seems wrong, or needed. The gain of man is the gain of society. The secret of these United States, where unscrupulous avarice has reached enormous proportions."

# Activity in Shooting, Horse Racing and Chess, as Well as Baseball Fields.

**LOLOS ARE FAST SHOOTING THE CHUTES.**

**LOSE TWO GAMES IN ONE DAY TO SAN FRANCISCO.**

**HIS WAS AN EASY MARK for the Northerner, Who Hit Him Twice Since Jones Could Not Distribute His Good Offerings.**

**BY THE NEW ASSOCIATED PRESS-P.M. SAN FRANCISCO, July 7.—The Los Angeles baseball nine was beaten twice today by the San Franciscans. The second game, at Oakland, was lost, but the attendance was not good. In the afternoon at Recreation Park both Whalen and Hale were hit enough and hard, yet but one run was registered for Los Angeles and for the local team.**

**It was a game of debts between the bats and errors redeemed, just the kind that is pleasing to the multitude. The last of the series was played before a large and enthusiastic audience.**

**The score:**

**Home game:**

**BY THE NEW ASSOCIATED PRESS-P.M. SAN FRANCISCO.**

**DETROIT WINS EASILY.**

**BY THE NEW ASSOCIATED PRESS-P.M. DETROIT, July 7.—Detroit bunched their hits on Patterson in the third inning today, and scored five runs which gave them the game. The attendance was 4200. Score:**

**Chicago, 5; hits, 9; errors, 2.**

**Batteries—Waddell and Kaho; Umpire—Nash.**

**AMERICAN LEAGUE.**

**DETROIT WINS EASILY.**

**BY THE NEW ASSOCIATED PRESS-P.M. CHICAGO, July 7.—The Brooklyn team won easily today by perfect fielding, daring base running and lucky hitting. The attendance was 6400. Score:**

**Chicago, 5; hits, 9; errors, 2.**

**Batteries—Waddell and Kaho; Umpire—Nash.**

**CLEVELAND SHUT OUT.**

**BY THE NEW ASSOCIATED PRESS-P.M. MILWAUKEE, July 7.—The home team had a stringing up today, and the change worked well. The attendance was 4800. Score:**

**Milwaukee, 2; hits, 5; errors, 2.**

**Batteries—Reidy and Maloney; Scott and Wood.**

**BICYCLING.**

**GOOD TIME MADE.**

**BY THE NEW ASSOCIATED PRESS-P.M. BERLIN, July 7.—In the bike competitions for the world's championships, which began here today, the 100 kilometer (about 62 miles) amateur championship race was won by Rob of Munich in 1:38:06. Bonheur de Paris fell early in the race and was seriously injured.**

**PROGRAMME OF RACES FOR THE FALL MEET.**

**OVER THIRTY EVENTS FOR PACERS, RUNNERS AND TROTTERS.**

**Thirteen Days of Sport Promised—No Famous Horses Will Appear, but a Big Number of Very Fast Ones Will Race During the Long Meeting.**

**THE RACES OF THE SIXTH DISTRICT AGRICULTURAL ASSOCIATION, which will be held at Agricultural Park for thirteen days, beginning September 28, and ending October 13, promise the best sport in the history of the association. Entries for the pacer, trotting and racing races are complete, but entries and while some of the classes are not filled, enough entries have been received to show that during the meet there will be between 200 and 400 horses at the track. There will be no world-beaters among the lot, but a sufficient number of fast ones are entered to give the crowd a run for all of its money.**

**The complete entries for the different events are as follows:**

**TROTTING.**

**Free-for-all—Neenut, George Ford; Monteray, P. J. Williams; Little Albert, J. M. Nelson; Claudio, George Anderson.**

**2:10 class—Ansell, George Kelly;**

## Orange County Towns: Santa Ana and Anaheim.

### A NAHEIM IRRIGATION COMPANY MEETING.

#### REPORTS OF SUPERINTENDENT AND STANDING COMMITTEE.

Practice of Transferring Stock to Secure Temporary Benefit of Membership to Be Stopped—New Reservoir Site to Be Purchased.

**ANAHEIM,** July 7.—[From The Times' Resident Correspondent.] The regular meeting of the Anaheim Union Irrigation Company was held Saturday afternoon. The board approved the action of the committee in holding out for \$300 for three acres of land at Yorba for additional cemetery grounds for that section. The bridge near Fay's place was reported in bad condition, and the superintendent was instructed to repair same.

Director Pierotti reported that the De Granges ditch had been cemented its entire length. As to the proposed change of the ditch on Mr. Fendergast's place in Fullerton, as asked for further time to report.

The chairman instructed to sell the company's hay crop in La Habra Valley. The secretary was instructed to write State Senator Nutt of San Diego that the company would cement his ditch south of town provided he would see that the gravel was hauled, and bear half of the expense of the cementing and other necessary work. S. Tucker was granted permission to put in a new distribution gate on his place at his own expense. The matter of an overcharge for water on the Leffingwell ranch was referred to Zanero Rogers.

The actions of many stockholders transferring their stock temporarily and below the reservoir so that the directors would know the exact amount of water delivered to irrigators daily, was severely criticized. It has been going on for more than two years, and the board is determined to stop it. One director stated that he believed that H. Gaylord Wilshire of Los Angeles had even been receiving water on his place in Fullerton on the Carlton shares without a transfer of the stock. Pierotti, state's attorney, directed him to appoint a committee to bring in a resolution at the next meeting which will put a stop to the shifting of water stock.

Mr. Sherwood moved that the engineer in water measurements above and below the reservoir so that the directors would know the exact amount of water delivered to irrigators daily, but there was a tie vote. After the reading of the minutes, the board voted to transfer the stock. Some of the large stockholders were afraid to have their water measured.

The engineer was instructed to take the necessary steps to get the work under way of building the cut-off in the arroyo below Horner Bend, or of Ritter. The distance will but one from 1725 feet to 990 cutting out a number of weak banks. The cost will be nearly \$2000.

The application of the administrator of Kate Symonds estate to hand certain stocks transferred was referred to the attorney, add will not come up for action until next meeting. A number of other transfers were ordered.

Some time ago the board promised to purchase 100 acres of land at Yorba for a reservoir site for \$6250. At that

time Director Sherwood was in favor of having the site surveyed before the board entered into any agreement. Now that the property has been surveyed it is found that the company really needs only seventy acres, but according to the agreement it will have to pay for the whole tract of 100 acres. The engineer was instructed to examine the portions of the Cajon Canal which was damaged by the November flood, making necessary an expenditure of nearly \$5000 to put it in good condition, besides the heavy loss and inconvenience to cabbage growers who want water and make a resort setting for those who have done to avert this damage and expense in the future, and to make an estimate of the probable cost.

The chairman stated that the treasurer should be charged for storage when forwarding money, as he would have a salary to handle the company's cash, but there was no action on the matter. The directors decided to go up the ditch Monday to the head below Ritter, to inspect the new system, and to look over the proposed Yorba reservoir site next Thursday.

The report of the Finance Committee showed that the cash in the hands of the treasurer amounted to \$14,000.75, and in the hands of the seller, as well as the present value of certain products in the market, and as a result a waiting game is being played, the seller evidently being of the opinion that he will get his price later on, and the buyer believing that he can buy cheaper at a later date. This condition exists with reference to honey, barley, apricots and potatoes. Among the producers there are always a certain number who are obliged to sell their crop as soon as it is matured, and as a result both the producers and the buyers are kept a little nervous until the market assumes a more stable condition. Four to 45 cents is now being offered for honey, but little is secured at these figures, the men holding out for 4 and 6 cents. Apricot buyers are offering 8 cents a dozen, and the growers are waiting for 8 and 9 cents. Grain farmers were 75 cents per hundred, or as much more as they can get, while at the present time they are only offered from 60 to 70 cents, according to quality. Potatoes are scarce, it being quite difficult to get them in carload lots.

**SANTA ANA BREVIETIES.**

At the annual meeting of the Orange County Game and Fish Commission the resignation of Joseph Gildmacher as secretary was accepted, and Ed Vaughn elected to fill the vacancy. Before adjourning a resolution was passed asking the State Fish Commissioner to appoint three additional game wardens in this county.

C. A. Westgate has returned to Long Beach after a week's visit with relatives in Orange.

Miss Lizzie Turrill of this city is writing again with Mrs. Will Valentine at Redondo.

The German-English school held a picnic at the County Park in Santiago Cañon Thursday.

Mr. and Mrs. Robert Hotaling celebrated the twenty-fifth anniversary of their marriage Monday. Many hand-made presents were received.

Ruby Rebekah Lodge of Orange elected the following officers for the ensuing term: Annie L. Hunt, N.G.; Lottie B. Gitchell, V.G.; M. D. Ladd, E. G.; Evelyn Crawford, F.S.; Lizzie Love, T. Jessie E. Crawford, W.; Olle M. Fuller, Mary M. Honey, L.G.; Marie M. Fyfe, O.G.; Anna C. Crawford, R.S.N.G.; Amanda E. McClelland, L.A.S.N.G.; Ida S. Fuller, C. Crawford, School; R. S. Franklin, J. Wooley, L.A.S., Addie B. Lucy, Lydia E. Jones, Louisa M. Mack, Laura M. Bowen, Banner Bearers; James Fullerton, Annie C. Crawford, Addie B. Lucy, Finance Committee; Tryphena Wright, Robert Fyfe, Stella M. Lee, Trustees.

It is now possible to say with much confidence that the distance from bad eyes and other physical defects causes many boys to play truant, get into mischief and land in the bridewell.

It may be asserted that the attempt to train left-handed children to use their right hands skillfully leads to defects in speech through some mysterious association of the cerebral functions.

It is probably true that many a pupil is supposed by his teacher to be willful or obstinate, and is made to suffer punishment because of the teacher's ignorance of its condition.

These are but indications of the problems being worked out by the department of child study in pedagogics in the Chicago schools.

When the officers of the commission began to weigh school children some wisescares wagged their heads and said it was a great waste of money to treat them.

Wisecares were weighed at the grocer's for nothing. When the pupils were invited to test their lung capacity by blowing into a machine it was admitted the exercise might be amusing to the young forms, but the wood was asked. And when the heels of the children's shoes were carefully measured with callipers and painlessly exact records made of the results, then the knowing ones were certain the child had been invaded by the insect that had ever knocked at their doors.

Over in Europe, on the contrary, scientific writers are devouring and quoting the reports of the Chicago school with interest and admiration.

The finding of the boy who was murdered lead the officers to believe that the horse was stolen after the murder and the boy went to San Luis Obispo. Which train he took there and what direction he traveled in making his escape are not known, but sufficient time has passed since the crime for him to have traveled many hundred miles by foot.

When the school children found the body yesterday they notified Mr. Blochman, the coroner, and the police went to the place. The body was lying on its back and all around it the growing beans were trampled down.

The boy cap was torn and there also were signs of a struggle. It is believed he was attacked where his cap was found and then ran away, his assailant after the struggle but was pursued and taken at the point where his body was found.

The body was taken to the undertaker's establishment of Jones & Haisted, and the inquest will probably be held Monday.

Immediately after the finding of the body, Kincaid, the partner of Mr. Jones, agreed on a sum total of \$1000 to help out the case, though he was not in the case.

It is believed that the murderer was committed while the murderer was slightly intoxicated.

It is known that the boy frequently chased each other over the fields and that young Blochman sometimes threw clods of dirt at him while the boy was playing.

The missing man's name is the last he had been drinking. It is possible that while he was playing with the boy the latter threw something at him that hit the boy in the heat of passion he killed the boy.

The supposed murderer is a man of about 16 years of age, of small stature, dark complexion, black mustache, wearing blue cap and some dark coat and vest and black hat. He came from Ventura, but his home was formerly at Tularia City.

His reputation there is that of a moral character, but he is not popular among his neighbors.

These questions, however, suggests a horrible but unmentionable motive for the brutal crime.

**RIVERSIDE BREVIETIES.**

John Reebly, a young man returning from a walk, after leaving his bicycle in front of the postoffice, learned that it had mysteriously disappeared. The wheel of a deputy constable was taken in the same way a week ago, and found by him on Monday.

The purchase of the Porter Bros.

warehouse by the newly-organized citrus association adds another large packing establishment to the Southern California fruit exchange.

Mrs. Ada Kirschfeld of Camarillo reports that his home was entered and robbed of \$7 some time during Friday night.

**CATALINA.**

**FIREMEN HAD A RUN.**

**AVALON,** July 7.—[From The Times' Resident Correspondent.] Ben Rosin has an acetylene gas machine to light his saloon, restaurant, and when they started up last evening there appeared to be something wrong.

An engineer investigating the cause when the gas was ignited and a fierce flame resulted. The tank did not explode, but simply burned until the flames were suffocated by wet burlap. The volunteer firemen had their first run, and they had a line of hose laid very promptly. The only damage was the complete wrecking of the gas machine.

Chorus, "Oh, Columbia, We Hall Thee," (Donizetti) by sixteen Indian boys and girls.

Senator George C. Perkins introduced as chairman of the day by George

Walter Reeves and Frank Gilligan of Los Angeles are among the visitors to the island.

The boat last evening brought a large contingent of Los Angeles people. Among them were ex-Mayor and Fred Eaton, Oscar C. Mueller and wife, H. F. Fleischman, J. Mueller and wife, H. J. Schoder, Carl Kries, Karl Triest, Monte H. Hellman, Mr. and Mrs. J. Merritt, Mr. and Mrs. A. W. Herold, C. E. Smith, A. S. Haisted, J. Hellman, who registered at the Metropole.

A. Richardson joined his wife here last evening for a few days.

James J. Jeffries, the champion pugilist, returned to Hotel Metropole.

Mr. and Mrs. John E. Stearns, Mrs. Butler and Miss Katherine Stearns of Los Angeles are at the Metropole.

Capt. Howard A. Dodge came over a few days since with his family in his yacht Osborn, and is now domish at Catalina.

E. Fallon and family of Los Angeles are established in camp here.

Fred Curley, dealer in building supplies, is here with his family for the season.

A. Baker of the Baker Iron Works is domiciled in camp here with his family for the season.

Prominent Pedagogues from All parts of the Country Gather at Detroit.

First General Session Tomorrow.

(By THE NEW ASSOCIATED PRESS—P.M.)

**DETROIT** (Mich.) July 7.—The lobby of the Hotel Cadillac, which is headquarters for the fortieth annual convention of the National Educational Association, is crowded tonight with prominent educators who have come from all parts of the country to attend the meeting.

The first general session of the association in Light Guard Armory will not be held until Tuesday, but the convention will be opened tomorrow morning with sessions of the National Council of Education and the Indian Education Department. William T. Harris, New York, president of the association, will be the first speaker before the national council.

### CHILD STUDY IN THE CHICAGO SCHOOLS.

#### SOME REMARKABLE FACTS WHICH IT HAS REVEALED.

Connection Between Hand and Centers of Speech—Tests of Eye and Ear. Interesting Statistics and Practical Good Resulting From the Work.

[Chicago Record-Herald:] Would it shock the public to learn that a boy who had been sent to the bridewell because he had astigmatism of the left eye?

Would it surprise any one to be told a child stammered because it is left-handed?

Would it exasperate a mother to be told her daughter had been punished and humiliates by a teacher for being slightly deaf?

At first thought it may seem incredible such results can flow from such causes. Two years ago it might not have been possible to prove such propositions, but now, thanks to the progressiveness of the Chicago Board of Education, a flood of light has been let upon child life, and some of its mysteries are being cleared up.

It is now possible to say with much confidence that the distance from bad eyes and other physical defects causes many boys to play truant, get into mischief and land in the bridewell.

It may be asserted that the attempt to train left-handed children to use their right hands skillfully leads to defects in speech through some mysterious association of the cerebral functions.

AT THE CITY'S GATES.

## EAST LOS ANGELES.

THE GORY FOURTH.

The accident returns. A new coming in on the East Side July 4, but when they had brought up the record. The first to arrive was George Terry, a twelve-year-old boy of South Water street, who lost both of his hands by the premature discharge of a cannon he was loading. Charles Smith of Clover street, and James Smith, the express man, were the next victim, the palm of his right hand being shattered by a pistol shot.

There were apparently Smiths to the left of the East Side for the second was also a brother of that household companion, O. A. Smith, son of O. A. Smith of Manitou avenue, who had himself all over with glory and success and things when he tried to see what the explosion of a whole can of powder at one time would sound like. The left side of Smith's face is severely burned, frightfully burned in the face of a premature powder explosion, and is under the influence of chloroform for nearly two hours while receiving treatment. All of these lads are apparently on the way to recovery.

The ladies of the Good Samaritan Hospital were entertained Tuesday evening by Mrs. Melville Daniels at the home of her mother, Mrs. E. P. Griffin, No. 24 Downey avenue. The evening was spent in games, music and dancing.

Mrs. E. W. Kapp received the Clover Club Wednesday afternoon at her home, No. 227 Sycamore Gates street, and the club was entertained by Mr. Robertson of No. 1530 Downey avenue.

The wedding of Miss Virginia Roane and Dr. D. Dunnigan is announced to take place at the church of the Sacred Heart on August 14, which is after 15 of that difference.

A good work is being done in the Vernon district by the sprinkling of ungraded streets with oil.

Mrs. Sherman Page entertained a large company of friends Tuesday evening at her home, No. 201 North Radcliffe avenue.

The members of St. Joseph's Church enjoyed a picnic at Perron's gardens, corner of Central avenue, Thursday. Music, games and dancing whited away the day.

Mrs. Emma D. Avery, who has just returned from Denver, has purchased two lots at the corner of Fifty-second and Tenino, and moved the week to the new property. She will build on the newly-acquired property for a permanent home.

Dr. J. W. Epperson has purchased the residence property, corner of Fifty-second and Dominguez streets, and now occupies it.

A good work is being done in the Vernon district by the sprinkling of ungraded streets with oil.

Rev. F. C. Coulter of the Broadway Christian Church gave the Vernon Christian Union a pleasant surprise last week by presenting them a fine new organ.

## GARVANZA.

## YOUNG PEOPLE ENTERTAINED.

Miss Lillian Grant entertained a large company of young people Sunday evening at her home on Eagle Rock avenue. Refreshments were served and games were played. Mrs. Marjorie Lowe receiving the first prize in the contest. Miss Hilda Merritt the second and Miss Elsie Rogers received the third.

Mr. O. O. A. Wagner also entertained a company of Garvanza young people Monday evening at her home on Cooper avenue, with music, games and refreshments.

The Rosenthal residence property on Lorillard street has been purchased by Mrs. T. D. Underwood, who has also purchased a lot at the corner of P. I. and Avenue 65, where she will erect a building for her own home.

Miss Campbell-Johnson is staying at the summer at the Johnson ranch, Misses Ethel Olson and Lillie Harnischteiger.

Yesterday afternoon's service at the Church of the Angels was conducted by Rev. Dr. J. D. Easter of the Trinity Church, Redondo.

At the Methodist Church Rev. McWhittington, president of the City Union of Epworth Leagues, preached and at the evening service the forward movement of the City Union was told.

D. H. Gilliland, president of the Union of the Service, was present.

Mr. Turner, a Standard Dictionary and a beautiful medalion of St. Cecilia. This was followed by a banquet served by the students of the league and speeches by Mr. Turner and the officers of the league.

and that many children of those who were retarded in their language and character, and who holds those dull children in those rooms themselves aided with teachers trained to their special needs.

per cent. of six-year-old found subnormal in vision tests, and the rate of increase rapidly. Per cent. of the boys of the 12 to 15 the average age of the boys leg faster than the average, but after 16 that difference is.

The boys excelled at all tests for endurance, grip and vital lung capacity.

also from the third to the end and on making his tests were a striking parallel physical condition and the standing of these children.

On the other hand the 234 boys Worthy school attached to were found to carry out, for they were both physically far beyond average, and the results attributed largely to maturing.
